# SABBIR AHMED HEMO

Statistician with a demonstrated history of working in the research as well as data science for both industry and non-profit organizations. Skilled in R, Python, Shiny, Big Data and Machine Learning.

## EDUCATION

2020 | 2019

### MS, Applied Statistics

University of Dhaka — Dhaka, BD

- CGPA: 3.81 out of 4.00

2018 | 2015

### BS, Applied Statistics

University of Dhaka — Dhaka, BD

- CGPA: 3.64 out of 4.00

## JOB EXPERIENCE

2023 | 2022

### R/Shiny Developer

Appsilon — Remote

- Responsible for building enterprise quality Shiny Application for Fortune 500 companies. Created different R packages as part of business logic implementation.
- Currently working on supply chain analytics for one of the top pharma companies.
- Tech stack: R/Shiny, SQL, CSS, JS, Azure Data Bricks, Github, etc.

2022 | 2021

### Data Scientist

IDLC Finance Ltd — Dhaka, BD

- Developed machine learning models for predicting customer default probability and credit scorecard for decision-making.
- Developed automated SLA monitoring system for credit department using ETL and Shiny.
- Automated insight generation from portfolio data using Rmarkdown and Shiny.

2021 | 2020

### Research Associate

DataSense, iSocial — Dhaka, BD

- Worked on data pipeline to streamline data from BoP to stakeholders using the Shujog Platform
- Made data available as insights for users as dashboards (Shiny) and automated report (Rmarkdown)
- Deployed different ML model and classification algorithm on production using REST Services in R

## SKILLS

- R
- Shiny
- Python
- HTML
- CSS
- SQL
- Apache Spark
- Unix
- Docker
- AWS
- Github

## RESEARCH INTEREST

Bio-statistics particularly in
Missing Data
Machine Learning
Big Data Analytics

2020 | 2018

### Consultant Statistician (Part time)

Grasp Industries Bangladesh — Dhaka, BD

- Deployed CAPI forms to collect data and build dashboard to monitor survey process
- Created automatic report generation tools using real time data with Rmarkdown

## PUBLICATIONS

2020

### Performance of Inverse Probability Weighting Compared to Multiple Imputation for Missing Binary Outcomes in Cluster Randomized Trials (Under review)

Co-author: Dr. Anower Hossain, Associate Professor, ISRT, DU

## AWARDS AND SCHOLARSHIPS

2020

### Student Conference Award

41st Annual Conference of the International Society for Clinical Biostatistics (ISCB) — Krakow, Poland

- Awarded Student Conference Award for the paper on Performance of Inverse Probability Weighting Compared to Multiple Imputation for Missing Binary Outcomes in Cluster Randomized Trials

2020

### NST Fellowship

Ministry of Science and Technology, GoB — Dhaka, BD

- Received grants as NST Fellowship for thesis paper on Performance of Inverse Probability Weighting Compared to Multiple Imputation for Missing Binary Outcomes in Cluster Randomized Trials

2019

### Best Poster Presentation Award

2nd International Conference on Applied Statistics 2019 — Dhaka, BD

- Awarded for the paper on Predicting Malnutrition Status of Under-Five Children Using Tree Based Models

2017

### ISRT Scholarship

University of Dhaka — Dhaka, BD

- Awarded for good academic performance

## VOLUNTEER EXPERIENCE

2019 | 2014

### Advisory Member

United Nations Youth Advisory Panel in Bangladesh — Dhaka, BD

- Worked as a technical advisor for UN agencies in Bangladesh
- Did different kind of surveys and FGDs
- Helped to organize different training session and workshop

2015

### Central Youth Volunteer

Save the Children in Bangladesh — Dhaka, BD

- Support NCTF program with technical assistance
- Did interviews and FGDs for the baseline survey of WASH project
- Organized different training session and workshop

## MEMBERSHIP

2020

### Member

International Society for Clinical Biostatistics (ISCB)
